PROFESSIONAL SUMMARY

IT professional with 4+ years of experience across technical support, systems administration, and network management, now advancing into software/database development and cloud security/DevSecOps through a Master's in Information Systems Technology. Proven track record of reducing downtime, improving system reliability, and delivering measurable gains in productivity and user satisfaction — complemented by hands-on project work in SQL, Python API development, and cloud security fundamentals that bridges traditional IT operations with modern, security-conscious software practices.

EDUCATION

The George Washington University, School of Business

Master of Science, Information Systems Technology

Relevant Coursework: Python and Database Applications, Relational Database, Information System Security

Washington, DC

Expected December 2026

University of Ghana

Bachelor of Arts, Information Studies & Psychology

Relevant Coursework: Information Management, Introduction to Computing

Ghana

November 2016

EXPERIENCE

IT Assistant

May 2022 – October 2024

Oraimo

- Guided 100+ customers through account setup and device configuration, ensuring seamless onboarding and optimal device functionality.
- Resolved hardware, software, and network-related issues through technical support, achieving a 50% reduction in system downtime as tracked via Google and Meta analytics.
- Diagnosed and implemented solutions for device issues, driving an 89% increase in customer satisfaction.
- Trained and onboarded 7 new team members on device setup procedures, customer service protocols, and internal support systems, ensuring consistent service quality across the team.
- Managed inventory and order operations, tracking stock levels and processing returns/exchanges for 50+ orders daily while reconciling counts to maintain accurate fulfillment.

IT Support Technician

December 2018 – September 2020

National Identification Authority, Ghana

- Monitored and verified registration systems daily, reducing downtime by 15%.
- Troubleshoot registration systems to resolve performance issues, connectivity failures, and security vulnerabilities, resulting in a 50% increase in productivity and improved system reliability.
- Collaborated with the IT team remotely and on-site to deploy weekly updates and security patches for registration systems, enhancing efficiency and security.
- Captured biometric data, including fingerprints, iris scans, and images, for 50+ individuals daily.
- Trained 20+ new staff on registration and data entry procedures, cutting errors by 35% and improving team efficiency.

PROJECTS

SpotEase (GW SpotFinder) — *Full-stack web app*

- Built a full-stack web application for GW students to find and filter study spaces (libraries, lounges, cafés) with real-time community updates and campus alerts.

IoT Network Energy Optimization Pipeline — *PySpark, Databricks, Keras, SMOTE, Plotly*

- Designed a Bronze/Silver/Gold medallion-architecture ML pipeline on IoT energy-management data; engineered features, balanced classes with SMOTE, and benchmarked a Keras neural network against Logistic Regression, Random Forest, Gradient Boosting, and SVM baselines, reaching up to 99%+ accuracy and F1-score.

DB-CRUD-Actions — *Python, SQL*

- Developed a database application implementing full CRUD (Create, Read, Update, Delete) operations to demonstrate reliable, structured data management patterns.

Movie & Show Finder API — *Python, REST APIs*

- Built a Python application integrating a third-party REST API to search and retrieve movie and TV show information, handling live external API responses.

SKILLS

Technical Skills: Systems Administration & Troubleshooting, Network Management, Security Patch Management, Cybersecurity Fundamentals, Cloud Security & DevSecOps Fundamentals, SQL & Relational Databases, Python (API Development, Automation), Machine Learning (scikit-learn, Keras), CI/CD Fundamentals, Git & GitHub, IT Documentation, Biometric Data Management

Soft Skills: User Training, Customer Service, Communication, Time Management, Teamwork
